

# Anyza<sup>エニ-ザ</sup> CHAIR

The harmonious coloring will not look out of place even if placed in a brightly colored office. A variety of functionality designed with the seater in mind. Anytime, anywhere, anyone - "Anyza" The lineup includes a lightweight mesh type and a classic cross type.

### Gas type vertical adjustment

By adjusting the height of the seat, you can obtain the appropriate sitting comfort that suits the physique of the person sitting.

### Reclining mechanism

Only the back reclines (inclines) freely.

### Reclining strength adjustment mechanism

By operating the knob under the seat, you can adjust the reclining strength of the backrest according to your body type and preference.

### Easy operation

Control levers and buttons are located on the back of the seat for easy access. Both are easy to operate.

### Cushion removal

Even if the seat surface is extremely dirty or damaged, you only need to replace the cushion.

※ The back will be replaced for each part. (Both mesh type and cross type)

### 3D curved biourethane

The urethane cushion that makes use of the three-dimensional curved surface provides a comfortable sitting experience. We use urethane made from plant-based materials that is hard to set and has a soft feel.

Mechanism	Reclining form	Back recliner
	Reclining mechanism	Recline free, recline strength adjustment
	Seat adjustment	Gas type vertical adjustment, seat track rick
Material	Back seat	Mesh: Elastic polyester mesh material Urethane cushion: Bio-urethane (25% vegetable content), upholstered
	Back cover	Polypropylene (PP)
	Elbow	Polypropylene (PP) + Steel
	Leg	Reinforced plastic (PAGF)
	Caster part	Nylon casters/rubber casters

### Environmental response

#### Use of biomass plastic

Using plant-derived polyol as the material for the urethane cushion, we have achieved a bio content of 25%, contributing to reducing the increase in CO<sub>2</sub> in the atmosphere and global warming.
