

AS-930

Addressing Systems

Address, Barcode and
Graphics Printing

Easy-to-Use Desktop Printer For Repetitive Mailings

The Neopost AS-930 features fixed print head technology capable of printing onto a wide variety of documents such as envelopes, postcards, magazines or newsletters.

It is perfectly suited for repetitive mail runs, as the secured paper paths and low jam rates reduce downtime and increase output. The AS-930 gives you the tools you need to take the blank space of a standard envelope and turn it into a medium for messages to your customers.

You can maximize its potential, personalizing your message and targeting your audience effectively.

You can change your message as often as you want to keep things fresh. And you can do it all in-house, quickly, economically and efficiently.

Time-Saving Flexibility

The AS-930 ensures maximum speed, accuracy and flexibility for all your printing jobs. Got an unexpected customer offer you need to integrate? No problem – the AS-930 gives you the flexibility to make last-minute changes with ease.

Productivity is increased naturally with high printing speeds and high capacity outputs which reduce cycle time. And your customer information is protected with the complete control of your database in-house.

Enhance Cost Control

Printing labels is an expensive and time-consuming business. The AS-930 cuts out the need for buying and stocking labels – and the manpower required to stick them on. Blank envelopes are transformed into powerful marketing messages that work hard for your business.

With our address management software, the duplicate and inaccurate addressing detection feature allows you to reduce return, duplication and unnecessary mail costs, enabling you to produce a higher volume of mail faster.

System Specifications

Why Choose Neopost?

Neopost is a world leader in mailing solutions and a major player in digital communications and shipping services.

Our innovative solutions help guide and support organizations in how they send and receive communications and goods, helping them to better connect with their customers.

In today's world of increased dependence on technology, Neopost believes that one thing remains unchanged: the real engine for success is people. Because it's people who drive business forward. Neopost appreciates and nurtures the human side of business and thinks of its customers as individuals, not as organizations.

We believe in creating partnerships based on trust in order to meet customers' changing needs.
