

Your Mail Center Assistant

A Flexible Folder Inserter to Automate Document Processing

With the need to identify more efficient and productive ways to conduct business, companies are always looking for ways to streamline the processing of their business critical communications. Ideally suited for businesses that need to automate a wide variety of document sizes and types, the DS-95i folder inserter handles them all with ease. DS-95i comes standard with barcode reading technology to automate variable-page jobs, incorporating another layer of security that ensures the right documents are always sent to the right person. Add Quadient's powerful Output Management or AIMS-500 software for even greater process optimization and integrity.

Automated Document Preparation

Quadient's optional Output Management Software (OMS) can add significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents.

OMS and AIMS, along with the folder inserter operating system, work seamlessly together to meet all your business' critical communications requirements.

Document Control and Security

Quadient's exclusive CIS scanning device reads OMR 1 track, OCR, 1D barcodes and 2D Data Matrix codes. With this technology, the inserter control codes can be printed nearly anywhere on the document, providing you greater document layout flexibility and control.

Visibility and Integrity

Businesses today face a multitude of regulatory issues and customer demands to guarantee the integrity of business communications.

The optional AIMS-500 software extends DS-95i's built-in document security to deliver complete end-to-end process verification. Its verification capability confirms every piece of mail in your job has been processed accurately, providing complete closed loop, piece-level integrity.

Business Impact

Revenue Growth

Maximize opportunities to better communicate with customers

Risk Mitigation

Ensure that every recipient receives the right mail piece

Customer Engagement

Create your own professional looking mail pieces

Expense Control

Maximize productivity thanks to speed and reliability

DS-95i

1. High-Capacity Vertical Stacker
Preserves printing order and holds up to 500 finished envelopes so operators spend less time unloading.

2. Touch Screen Display
10" color graphical interface makes DS-95i operation simple and intuitive.

3. Feeder Linking

Continuous operation is achieved by linking feeders. If one feeder runs empty, another one automatically takes over, allowing you to refill as needed until your job is complete.

4. Envelope Hopper
500-envelope capacity with on-the-fly reloading.

5. Automatic Collator
Collate and fold up to 10 pages together.

Simple and Intuitive

The color touch screen and automatic job setup make DS-95i exceptionally easy to use. Simply load envelopes and documents and the DS-95i will adjust all settings automatically and even save them to the memory for instant recall.

Versatile and Efficient

The VersaFeeder is the ideal choice for running inserts, BRE's or even booklets up to 2.5 mm thick. This dedicated insert feeder holds up to 500 documents at a time and can be programmed to feed automatically or selectively feed on command.

Specifications	
Processing speed	Up to 4,300 envelopes / hour
10" Color touch screen	Standard
Automatic settings	Standard
FlexFeed multi-format feeder	Standard
Multi-sheet feeding	Standard
Cascade from all feeder	Standard
Document and insert feeders	Up to 7
Full page CIS scanner	Standard
Barcode Recognition (BCR)	Standard
Optical Mark Recognition (OMR)	Standard
Optical Character Recognition (OCR)	Standard
Job memory	50
Manual feed	Standard
High-capacity feeder	Up to 725 sheets (20 lb.)
FlexFeed capacity	325
MaxiFeeder capacity	1,200 sheets (20 lb.)
Fold types	Letter, z-fold, single, double parallel, no fold 
Document height	3.5" - 14"
Document width	5.1" - 9"
Document weight	16 - 66 lbs.
Envelope length	3.5" - 6.3"
Envelope width	6.3" - 9.7"
Maximum set thickness	2.5 mm
Accumulate before folding	Standard
Tip-to-tip sealing	Standard
Options	
AIMS closed loop piece verification	Available
Short feeders	Available
Different exits: vertical stacker, side exit	Available
Output Management Software (OMS)	Available
VersaFeeder Insert Feeder	Available
Mailing system interface	Available
