## INSTRUCTION

PUR binding is strong and durable, regardless of the paper material. So moisture and dust do not adhere to them or separate the books. Unlike general binding machines, it is completely spread out at 130 degrees and it is not deformed. It has a dust collector and smell removal device, you can work in a pleasant environment. It also has a safety cover on machines, which means that lifting the cover will not operate, so it can prevent any possible safety accidents during operation.
