

AJ-700 / AJ-740i

Neat jogging rapidly achieved with the powerful air blower.

Thanks to the high-power air blower, which is the most powerful in its class, the AJ-700 & AJ-740i reliably jogs unevenly arranged papers very quickly.

It prevents the paper from becoming soiled by blowing air between the sheets.

Wet ink can be rapidly dried by the effect of the air, which is even more effective in the case of two-sided printing. It is also effective for elimination of static electricity and powder stayed on the paper after printing.

Jogging strength and air volume are adjustable according to paper quantity and quality. In addition, the AJ-700 & AJ-740i can operate in various modes such as air only, jogger only, reset timer operation and the time interval difference mode (continuous jogging for a preset period after the air has stopped).

Model	AJ-740i	AJ-700
Maximum paper size	328x450 mm	
Minimum paper size	128x187 mm	
Loading capacity	800 sheets of 64 gsm paper	
Thickness of the tray	100 mm	
Jogging system	Vibrated by eccentric balanced weight	
Air blowing system	By air blower	
Anti static system	●	-
Power source; Consumption	110, 117, 230VAC, 50/60Hz; 725W (AJ-740i)/ AJ-700	
Dimensions (WxDxH); Weight	470x420x995 mm; 39 kg (AJ-740i)/ 35 kg (AJ-700)	
Standard accessories	A4/Letter size tray, A3/Ledger size tray, foot switch
